nagapotluricivil@gmail.com | Dallas, Texas | (216) 533- 1487 | [Linkedin](#)

(I am authorized to work in the US)

PROFESSIONAL SUMMARY

Civil Engineering Professional with hands-on experience in construction materials testing (CMT), DOT project QA/QC, concrete/soil testing, and field inspection. Certified in ACI, OSHA 30, NETTCP, and ODOT (Tech I/II, Soils). Combines civil field expertise with strong data management and reporting skills to ensure rigorous standard compliance (ASTM/AASHTO). Seeking Field Engineer, Inspector, or QA/QC roles.

TECHNICAL SKILLS

Civil Engineering & Analysis: AutoCAD | STAAD Pro | ETABS | Civil 3D | Construction Materials Testing | Reinforcement Inspection | QA/QC Documentation | Construction Inspection | Pavement Inspection | Alignment & Grade Verification | Concrete Coring | DOT Project Experience | Field Coordination | ASTM/AASHTO/ACI Standards | Earthwork Inspection | Structural Analysis Basics.

Field & Laboratory Testing: Slump Testing | Air Content Testing | Proctor Testing | Moisture Content Testing | DOT Flexural Beam Casting | Compressive & Flexural Strength Testing | Sample Collection & Documentation.

Project & Office Tools: MS Excel | MS Word | Technical Documentation | Scheduling Basics | Project Coordination.

EXPERIENCE

Construction Materials Technician | DLZ Corporation | Cleveland, Ohio

Mar 2026 – Present

- Performed field & laboratory testing of soil and concrete materials in accordance with ASTM, AASHTO and DOT standards.
- Inspected pavement alignment and grade during concrete placement to ensure compliance with plans and specifications.
- Executed DOT-compliant concrete testing and evaluation, including casting flexural beams, performing in-place concrete coring for thickness and compressive strength verification, and managing strict curing and handling protocols.
- Maintained meticulous QA/QC field documentation, including comprehensive daily logs, material test reports, and compliance data to ensure full alignment with project specifications and DOT regulations.
- Coordinated with contractors, engineers, and inspectors to ensure compliance with project specifications.

Junior Site Engineer | Samruddhi Builders | India

DEC 2021- SEP 2022

- Supervised daily field operations for residential construction projects, ensuring all activities strictly adhered to safety protocols, design timelines, and engineering specifications.
- Performed comprehensive QA/QC inspections across critical project phases, including concrete placement, reinforcement placement, formwork/shuttering, and final finishing works.
- Facilitated project coordination and tracking by collaborating with contractors, suppliers, and engineers to maintain workflow while accurately preparing daily site reports and quantity measurements.

ACADEMIC PROJECTS

Southwood Plantation Road Realignment Project (Tallahassee, Florida)

2023

- Designed a complete horizontal and vertical geometric alignment for a multilane divided highway from Biltmore Ave to Apalachee Parkway using AutoCAD, Civil 3D, strictly adhering to AASHTO Green Book criteria.
- Evaluated corridor design elements, including sight distance optimization, drainage considerations, and safety improvements, to maximize traffic flow and regional accessibility.

Comparison Between Lightweight and Nominal Concrete using LECA and Steel Fibers

2021

- Designed lightweight concrete mixes using LECA and steel fibers, evaluated compressive strength and load-carrying capacity through laboratory testing, analyzed structural performance, and prepared technical documentation.
- Demonstrated that lightweight concrete can achieve required design strength with reduced dead load.

EDUCATION

Master of Science – Information Technology & Management | Campbellsville University | KY, USA

May 2025

Key Courses: Project Management, Team Management, Disaster Recovery Planning, Negotiation & Conflict Management.

Bachelor of Technology – Civil Engineering | JNTUK | INDIA

JULY 2022

Key Courses: Structural Analysis, Strength of Materials, Fluid Mechanics, Environmental Engineering, Surveying, Transportation.

CERTIFICATION

- ACI Concrete Field-Testing Technician Grade 1
- OSHA 30
- APNGA Portable Nuclear Gauge Safety
- NETTCP Soils & Aggregates Inspector
- DOT Flexible Pavement Inspection, Traffic Work Zone Control & Compaction Testing of Unbound Materials
- **Fundamentals of Engineering (FE Civil)- Aspirant**
