

NAGA UNNATH KUMAR CHOWDARY POTLURI

Dallas, TX | (216) 533-1487 | nagapotluricivil@gmail.com | [LinkedIn](#) | [Portfolio](#)

Authorized to work in the US

PROFESSIONAL SUMMARY

Civil Engineer & QA/QC Specialist certified in ACI, OSHA 30, and NETTCP, with hands-on experience in construction materials testing (CMT), DOT project inspections, and soil/concrete quality control. Enforces ASTM, AASHTO, and DOT compliance across infrastructure and site development projects. Pairs this civil engineering foundation with an MS in IT & Management to bring stronger data tracking, reporting, and compliance-system discipline to field QA/QC work.

CERTIFICATIONS & LICENSES

- ACI: Concrete Field Testing Technician – Grade I
- FE Exam Candidate (EIT pending)
- OSHA 30 | APNGA Portable Nuclear Gauge Safety
- NETTCP Soils & Aggregates Inspector | DOT Flexible Pavement & Compaction Inspection
- Valid U.S. Driver's License

CORE COMPETENCIES & TECHNICAL SKILLS

- Field & Lab Testing: Concrete Testing (Slump, Air Content, Flexural Beams, Coring), Soil Testing (Proctor, Moisture Content, Nuclear Density), Subgrade Evaluation
- QA/QC & Inspection: Formwork & Rebar Inspection, Earthwork Operations, Pavement Alignment & Grade Verification, Daily Field Reports (DFR), As-Built Verification
- Codes & Standards: ASTM, AASHTO, ACI, DOT Specifications
- Engineering Software: AutoCAD, Civil 3D, STAAD Pro, ETABS

PROFESSIONAL EXPERIENCE

Field Technician | ECS Limited | Dallas, TX

Aug 2026 – Present

- Supporting DOT and municipal compliance through field subgrade evaluations, shallow foundation inspections, and soil compaction testing on active construction developments.
- Operating APNGA nuclear density gauges to measure moisture-density relationships, conduct Proctor verification, and log real-time field data for QA/QC reporting.
- Inspecting earthwork and fill placement operations and preparing Daily Field Reports (DFR) documenting site conditions and non-conforming work.

Construction Materials Technician | DLZ Corporation | Cleveland, OH

Mar 2026 – Jul 2026

- Cut project compliance timelines by 15%, as measured by testing turnaround, by executing ASTM/AASHTO/DOT-compliant field and lab testing on soil, concrete, and aggregates across 10 active projects.
- Achieved a 100% pass rate on structural compaction audits by operating APNGA nuclear density gauges for subgrade evaluation, moisture content analysis, and Proctor density testing.
- Performed rebar and formwork inspections across 10 active DOT projects, verifying pavement alignment/grade and executing flexural beam casting and in-place core sampling.
- Reduced contractor inquiry delays across those 10 projects by authoring Daily Field Reports, tracking nonconformance logs, and verifying site compliance against as-built drawings and project specs.

Junior Site Engineer | Samruddhi Builders | India

Dec 2021 – Sep 2022

- Maintained a 0% safety incident record on a 5-story residential building over 7 months by directing daily field operations and subcontractor crews.
- Cut material rework costs by 10% by performing full-scope QA/QC rebar inspections, formwork/shuttering checks, and supervising concrete pour operations.

ACADEMIC PROJECTS

Southwood Plantation Road Realignment Project | Tallahassee, FL

2023

- Engineered complete horizontal/vertical geometric alignments for a multilane divided highway using AutoCAD and Civil 3D in compliance with AASHTO Green Book criteria.
- Evaluated corridor design parameters, including sight distance safety, drainage considerations, and regional traffic accessibility.

EDUCATION

Bachelor of Technology, Civil Engineering | JNTUK | India

Jul 2022

- Key Focus: Structural Analysis, Transportation Engineering, Surveying, Strength of Materials, Fluid Mechanics

Master of Science, Information Technology & Management | Campbellsville University | KY, USA

May 2025

- Key Focus: Engineering Data Management, Technical Project Management, Systems Optimization
