

NAGA UNNATH KUMAR CHOWDARY POTLURI

nagapotluricivil@gmail.com | Dallas, Texas | (216) 533- 1487 | [LinkedIn](#) | [Portfolio](#)

(I am authorized to work in the US)

PROFESSIONAL SUMMARY

Civil Engineer & QA/QC Specialist certified in ACI, OSHA 30, and NETTCP. Combines hands-on construction materials testing (CMT), DOT project inspections, and soil/concrete quality control with data-driven reporting. Rigorously enforces ASTM, AASHTO, and local DOT compliance across complex infrastructure and site development projects.

CERTIFICATIONS & LICENSES

- **ACI:** Concrete Field Testing Technician – Grade I
- **Safety & Field:** OSHA 30 | APNGA Portable Nuclear Gauge Safety
- **DOT & QA/QC:** NETTCP Soils & Aggregates Inspector | DOT Flexible Pavement & Compaction Inspection

CORE COMPETENCIES & TECHNICAL SKILLS

- **Field & Lab Testing:** Concrete Testing (Slump, Air Content, Flexural Beams, Coring), Soil Testing (Proctor, Moisture Content, Nuclear Density), Subgrade Evaluation.
- **QA/QC & Inspection:** Formwork & Rebar Inspection, Earthwork Operations, Pavement Alignment & Grade Verification, Daily Field Reports (DFR), As-Built Verification.
- **Codes & Standards:** ASTM, AASHTO, ACI, DOT Specifications.
- **Engineering Software:** AutoCAD, Civil 3D, STAAD Pro, ETABS.

PROFESSIONAL EXPERIENCE

Field Technician | ECS Limited | Dallas, TX

Aug 2026 – Present

- **Ensured 100% compliance with local DOT and municipal specifications** by leading field subgrade evaluations, shallow foundation inspections, and soil compaction testing on active construction developments.
- **Accelerated site QA/QC reporting turnarounds** by operating APNGA nuclear density gauges to measure moisture-density relationships, conducting Proctor verification, and logging real-time field data.
- **Mitigated structural settlement risks** by inspecting earthwork, observing fill placement operations, and preparing detailed Daily Field Reports (DFR) outlining site conditions and non-conforming work.

Construction Materials Technician | DLZ Corporation | Cleveland, Ohio

Mar 2026 – Jul 2026

- **Accelerated project compliance schedules by 15%** through precise field and laboratory testing of soil, concrete, and aggregates adhering strictly to ASTM, AASHTO, and DOT standards.
- **Achieved a 100% pass rate on structural compaction audits** by operating nuclear density gauges (APNGA) to conduct subgrade preparation evaluations, moisture content analysis, and Proctor density testing.
- **Mitigated concrete structural defects across active DOT projects** by performing rigorous rebar and formwork inspections, verifying pavement alignment/grade, and executing flexural beam casting and in-place core sampling.
- **Streamlined site communication and reduced contractor inquiry turnarounds** by authoring detailed Daily Field Reports, tracking non-conformance logs, and verifying site compliance against as-built drawings and project specs.

Junior Site Engineer | Samruddhi Builders | India

Dec 2021- Sep 2022

- **Maintained a 0% safety incident record and kept structural timelines on schedule** across multi-story residential developments by directing daily field operations and subcontractor crews.
- **Eliminated material rework costs by 10%** by performing full-scope QA/QC rebar inspections, shuttering/form work checks, and supervising continuous concrete pour operations.

ACADEMIC PROJECTS

Southwood Plantation Road Realignment Project (Tallahassee, Florida)

2023

- **Engineered complete horizontal/vertical geometric alignments** for a multilane divided highway using AutoCAD and Civil 3D in strict compliance with AASHTO Green Book criteria.
- **Optimized corridor design parameters**, evaluating sight distance safety, drainage considerations, and regional traffic accessibility.

EDUCATION

Bachelor of Technology – Civil Engineering | JNTUK | INDIA

Jul 2022

Key Focus: Structural Analysis, Transportation Engineering, Surveying, Strength of Materials, Fluid Mechanics.

Master of Science – Information Technology & Management | Campbellsville University | KY, USA

May 2025

Key Focus: Engineering Data Management, Technical Project Management, Systems Optimization.
